

Additional Terms for Second Draw PPP Loans

- A. **Maturity:** This Note will mature in five (5) years (“Maturity Date”) from the date of this Note (“Note Date”).
- B. **Repayment Terms:**

The interest rate is 1.00% per annum. Interest shall accrue on outstanding principal pursuant to this Note, including during the Deferment Period, and shall be computed on the outstanding principal on a 365/365 basis and on a non-compounding, non-adjustable basis.

The following defined terms are used herein: (1) “Covered Period” means the period that begins on the loan disbursement date and ends on any date selected by the Borrower that occurs during the period that begins on the date that is 8 weeks after the loan disbursement date and ends on the date that is 24 weeks after the loan disbursement date; (2) “Forgiveness Application Period” means the period that commences after the last day of the Covered Period and ends ten (10) months thereafter; and (3) “Deferment Period” means (a) the period that commences with the Note Date and ends on the last day of the Forgiveness Application Period, if the Borrower does not apply for loan forgiveness during the Forgiveness Application Period or (b) the period that commences with the Note Date and ends on the day the SBA (i) remits to the Lender the loan forgiveness amount applicable to the Borrower’s loan forgiveness application or (ii) notifies the Lender that no loan forgiveness is allowed, if the Borrower applies for loan forgiveness during the Forgiveness Application Period.

The Lender shall provide notice to the Borrower of the amount of loan forgiveness remitted to it by the SBA or if the SBA has notified Lender that no loan forgiveness is allowed. If the SBA determines that no loan forgiveness is allowed or only partial loan forgiveness is allowed or the Borrower does not apply for loan forgiveness during the Forgiveness Application Period, the Lender shall notify the Borrower of the date the first payment is due (“First Payment Date”).

No principal or interest payments shall be due during the Deferment Period. If there is any principal or interest not forgiven, and therefore outstanding after the end of the Deferment Period, commencing on the First Payment Date and continuing on the same day of each month thereafter, Borrower shall make a monthly principal payment on the outstanding principal balance (after application of any loan forgiveness) in an amount that shall fully amortize the outstanding principal balance of the Loan by the Maturity Date. Accrued interest shall be due and payable with each monthly principal payment. Lender will apply each installment payment first to pay interest accrued to the day Lender received the payment, then to bring principal current, and apply any remaining balance to reduce principal. This Note is payable in full on the Maturity Date without further demand or action of the Lender.

Loan Prepayment: Borrower may prepay this Note at any time without penalty.
